SULPHUR SPRING'S ACADEMY.

TAMPICO, TENN., May, 21, 1881. MR, EDITOR: The school which was taught at Sulpur Springs in our country by Profs. Justice and Vineyard, closed shells of three eggs, and throw in the old ast week. We witnessed the examination | hen that laid them, and four sticks of cinand closing exercises. The examinations amon drops and two tablespoonfuls of were most creditable showing effective and left it stand until it ferments, and drill and thorough instruction. Those who and then put it in a tin can and tie the can were examined in the dead languages and to a dog's tail-this will stir it up to the igher mathematics, distinguished them selves for skill and ability. Responsive to the wishes of Profs. Justice and Vineyard, the spectators called on the pupils to answer many intricate questions and to oive many complicated problems. They did not fail to answer a siegle question or to solve a single problems. The young ladies who received instruction in the cience of vocal music from Miss Hattie Lamie of your county, rendered some fine rocal and instrumental music. The music reflected credit on Miss Lamie the accomplished music teacher. She is a highly refined and cultured lady and possesses every prominent characteris ic of a fine were interesting. The didactic style of the

compositions was highly appreciated by the whole audience. The declamations that were delivered showed through dril n elocution. We must congratulate the people of this or the great interest that they have mani fested in the school at Sulphur Springs. This school was very largely patronized, and the prospects for a more extensive patronage, next session, is very flattering. Sulphur Sp ing Academy, is located in Richland Valley, it is a beautiful and fertile valley. The proximity of this academy to the fine claybeate and sulphur springs is a great convenience, ciety is good. The people in Richland Valley are an intelligent and prous people Profs Justice and Vineyard deserves many enconiums for the energy, industry and skill that they have demonstrated in he ast six months. They are both able instructors.

---Burnside's Proposed March to the Sea.

Providence Journal, May 26-Our Washington dispacetes of the .3d speak of the finding among t e archives of the Was Department of a "cipher disputch from General Burnside to General Hallecs," containing a proposition to make a march" by way of Atlanta to the sea, to be undertaken without trains and the troops to subsist on the accurry." This can read it. Of course, the plan then pr-posed by Burnside had not the comprehenexecuti na year ater. But we think that it can be rightfully c aimed for it, that it contained the garm, at least, of the grand movement, which, under more favorable circumstances, was successfully accomplished. General Hallleck dismissed the matter in rather a summary way "Distant expeditions into Georgia," he said in reply, "are not now contemplated." 1664 General Grant was in command of the army, and the march to the sea was

THE HUMAN HAIR,

How to Preserve and Beautify it,

Many persons abuse this delicate and beautiful ornament by burning it with alcoholic washes and plastering it with grease, which has no affinity for the skin, and is not absorbed. Buenett's Cocoaine, a compound of Cocoanut Oil, &c., is unrivaled as a dressing for the hair-is readily absorbed, and is peculiarly adapted to its various conditions, preventing its falling off and promoting its healthy growth.

Old Mrs. Jones borrowed Mrs. Brown's recipe for making watermelon pickle the other day, and, as she couldn't see to read very well' she got her grandson Jakie to read it for her. Jakie took the paper like a dutiful child, and holding it upside down commenced:

'Take a green watermelon-" "Why. Jakie, are you not mistaken? I thought the melon must be ripe." "Oh, what's the matter wid yew! Gew ever see a watermelon that wusn't green? "Cut the watermelon into four halves

"But there ain't only two halves to anything. I don't believe you are reading that right Jakie " "Weil, I don't have anyhow that's what the resect says. Then soak it in a pint

"Oh, dear me! How in the world can you put a watermelon in a pint cup?"
"Well. I ain't here to tell the whereases and howforces. I'm just reading the facts and you can put in the florofee to suit your taste. After soaking the melon put it in a

"I wonder if Mrs Brown sent me such a recipe as that?" said the old lady, but Jakie kept on: "Then put the watermelon in a quart bowl and pour over it a gallon of vinegar, taking care not to spill the vinegar --"I'd just like to know how you can pour a gallon into a quart bowl without spilling any of it: " but Jakie continued: "Then sitt a peck of red peper through

"Your ob't serv't, BENJ. T. RICH." ----Intemperance in England. London Spectator.

The temperance movement appears to be making a real impression on the consumption of alcoholic drinks in England. In the Times of Tuesday Mr. Hoyle has shown that the consumption of beer, wine, and spi its during the year 1880 has diminished by nearly \$6 000 000 from what was in 1879, and of this nearly the whole has been saved in beer alone. On the other band, the consumption of British spirits has rather inc eased, though the consumption of foreign spirits has diminished more than the former has increased If the e figures may be trusted, the improvement is rather in the greater temperance of non-spirit drinkers than in the conversion of regular dram drinkers. For the extin uishing of the latter class we must look chiefly to death, and the improved education which may prevent the places of existing drinkers from being supplied by new drinkers as they drop out.

KIDNEGEN is highly recommended and unsurpassed for WEAK or FOUL KIDNEYS, DROPSY, GRAVEL, BRIGHT'S DISEASE, LOSS of ENERGY, NERVOUS DEBILITY, or any OBSTRUCTIONS, arising from KIDNEY or BLADDER DISEASES. Also for BLOOD and KIDNEY POISONING, in infected malarial sections.

By the distillation of a POREST LEAF with JUNIPER Berries and BARLEY MALT we have discovered KIDN+GEN, which acts specifically on the Kidneys and Urinary Organs, removing deposits in the bladder and any smalling, smarting heat or irritation in the water passages, giving them strength, vigor and causing a healthy color and easy flow of urine. It can be taken at all times without injury to the system. Unlike any other preparation for Kidney difficulties, it has a very pleasant and agreeable taste and flavor. It contains positive difficulties and will not nauseate. Ladies especially will like it, and Gentlemen will find KIDNEGEN he best Tonic Beverage for its purposes ever used!
